## Personal Property Exemptions Reduce GC Tax Base \$6 Million

By HARRY BARNES  
Press-Record Staff Writer

A reduction of \$6.6 million in property assessments of Granite City township—assuming substantial cuts in tax revenue of most of the township's taxing districts this year—was revealed today in announcement of new real estate and personal property valuations for Madison county's 24 townships.

The abstract of assessments completed by the Madison County Board of Review and certified to the Illinois State Department of Revenue by

County Clerk Eulalia Hotz, fixes the Granite City township valuation at \$168,233,280, a decline of \$6,638,210 below last year's figure of \$174,871,490.

Railroad property and capital stock assessments are not included in the local valuations extended by the review board, but railroad assessments also show a loss this year. Rail line values and capital stock are assessed by the state revenue department.

Figures announced by Miss Hotz also show a \$6,668,860 loss in valuations in Venice township; a reduction of \$807,405 in

assessments of Chouteau township and a reduction of \$728,270 in Nameoki township valuations.

County Assessments  
For the county as a whole, the assessment abstract fixes a total value of \$921,020,520—a decrease of \$36,511,765 below last year's total values of \$957,532,285 (also not including railroad or capital stock assessments).

Valuation losses in the four townships of the Quad-City area total \$10,962,835, projecting sizeable cuts in tax income when tax collections are made this year. Miss Hotz said extension

of tax rates and preparation of tax bills will begin as soon as the assessment abstract is reviewed and approved by the state revenue department.

While there were no breakdown figures by townships as to assessments of personal property and real estate values, total figures for the county as a whole show that all of the decrease in assessments was due to reductions in personal property values.

Assessments on lands and lots increased on a county-wide basis despite application for the 1970 tax year of the Homestead

Exemption Act of 1969 which allowed a \$1,500 real estate exemption on properties owned or partly owned by elderly persons 65 years of age or older.

Under another 1969 act of the legislature, personal property assessments on household furnishings and one car in each family were eliminated for the 1970 tax year for all persons who applied for each exemption. It was this act, on the basis of the new assessment figures, that accounted for most of the overall valuation loss.

Real Values Raised  
Actually, total assessments on

lands were increased to \$245,425,875 in all 24 townships. This is an increase of \$5,665,610 over the 1969 assessment of \$239,760,265. Total values on lots (the

assessment classification primarily affected by Homestead Exemptions) amounts to \$408,028,405, up \$517,750 over the 1969 value of \$407,510,655.

Consequently, all real estate valuations show a gross increase of \$6,203,360 in spite of exemptions allowed elderly property owners.

Personal property, on the other hand, showed a gross loss of \$42,698,060 in all 24 townships,

while the small amount of railroad property which is assessed locally dropped \$17,045.

The gain in real estate values applied against the personal property loss thus leaves a net county-wide assessment cut of \$36,511,765.

Granite City's assessment reduction will deal a severe financial blow to most of the township's five taxing agencies.

Expect Tax Cut  
The city, for example, would collect \$70,000 less due to the reduced value, on the basis of last year's tax rate of \$1.04 per \$100 assessed valuation.

If last year's total tax rate of \$7.47 for all six tax districts were applied against the \$6.6 million in reduced assessments, the actual tax loss would amount to \$364,183.

Tax losses also are anticipated in Nameoki, Venice and Chouteau townships in proportion to the assessment reductions.

Some taxing districts whose rates are not yet extended at the statutory maximums will be able to make up at least part of the tax loss by increasing tax rates.

Items recovered in the homes are valued at several thousand dollars. Police and FBI agents are attempting to determine the source of the guns, whiskey, cigarettes and tires shown here.

## Doubt Redistricting Possible by Deadline

By IRA TEINOWITZ  
Press-Record

Springfield Correspondent  
With the 1970 Census complete, the Illinois General Assembly must now turn to the task of reapportioning itself.

At this point, it is extremely doubtful the legislature will be able to do this before a June 30 deadline set in the new Illinois Constitution.

The chairman of the House reapportionment committee, Rep. David Regner, R-Mr. Prospect, revealed last week the Census Bureau currently has the figures needed, but the only way they are available is on computer tape.

Furthermore, Regner said, the figures are broken down into census tracts of about 10 blocks. The blocks have no relation to precincts or other political subdivisions in any way.

If the Senate or House Reapportionment Committee is to process the figures, it must either wait for them to be printed in November—a wait not allowed by the new constitution—or it must hire a computer firm to process the tape, by bringing the figures down to political subdivisions like precincts.

The House Reapportionment Committee last week did just that. They hired Leyland Systems, Inc., of Boston to process the tape and then to take any suggested maps and see how the districts would come out population-wise.

The U. S. Supreme Court has ruled districts may have a variance of 3%, but no more. And even that 3% is subject to question.

As if that is not enough of a problem, the initial breakdown of statistics cannot be finished before May 15.

So the committees can't do anything until then—and then

they have only six weeks to prepare a map, have it passed by both houses and signed by the governor.

Of course, a changed map will probably mean less legislators downstate and the governor.

Hileman Jr. of Granite City, state Demolay senior counselor and chairman of Illinois Demolay Week, and at right is Edward C. Bieser, Illinois Demolay executive officer for the International Supreme Council. Legion of Honor members will attend a dinner in Belleville Thursday.

## Recover Items From 3 Homes

Madison police with the cooperation of Granite City and Venice police confiscated goods from three Madison homes Friday, arresting three occupants.

Harold Ballentine Jr., 29, of 1418 Edwardsville Road, and Harry Snell, 23, of 2014 McClelland Ave., were charged with burglary. Albin Misukonis, 51, of 1009 Greenwood St., was charged with theft.

No charge was filed against a Granite City man at whose home a 23-inch television set was confiscated. He said he had purchased it from a Madisonian.

The arrests followed an investigation of a Feb. 25 burglary at the apartment of Charles F. Onstitt Jr., 1926 Edwardsville Road.

The origin has not been determined on more than 1,000 cartons of cigarettes, 15 cases of liquor, 16 auto tires, a pistol, two shotguns, three rifles and a rifle scope. At the Ballentine home, police took two razors, an electric hair curler set, a rug, a toaster, a jewelry box and a lamp. Cigarettes, liquor, tires, guns, a portable color TV set, a tape recorder, guitar and accordion were confiscated at the Misukonis home. At the Snell residence, police took a small camera.

Cigarettes which were recovered by police had no tax stamps on them, officials alleged.

Three Persons Arrested

Two men and a juvenile were arrested at 4 p.m. Sunday at the Bellemeor Village shopping center after a stereo, 10 tapes and a reverberator valued at \$176 were stolen from the auto of Gary Schmitz, 3113 Edgewood Ave., parked on the lot at the First Assembly of God Church, 24th Street and Grand Avenue.

Charged with theft of more than \$150 were Gregory Argente, 30, of 1857 Grand Ave. and Robert Fernandez, 18, of 2300 Edison Ave. The other youth

was referred to the juvenile officer.

Entry to the 1969 auto was gained by prying the left front window. The console was damaged, and papers from a brief case were scattered on the lot.

Burglars stole \$250, a \$200 minibus, a \$65.22 caliber rifle, a \$40 .40-gauge shotgun and a \$13 watch at the home of Charles Marshall, Rural Route Two, he reported to Madison County authorities at 9:20 p.m. Friday. Entry was gained by breaking a door glass.

Paul Huye, Sunnyside Acres, reported to Madison County authorities at 8:30 a.m. Sunday that someone burglarized his home.

## Church Plans New Building, Improvement

Construction of a new children's educational building and joining the Suburban Baptist Church, 2500 St. Clair Ave., and extensive improvements to the church's present facilities will get under way by the end of this month at a total cost estimated at \$180,000, it was announced today.

A ground-breaking ceremony for the new building, a 60 by 80 foot structure of stone and brick facing, will be held at noon Sunday. Rev. Wendell Garrison is pastor of the church.

Ron Ward, chairman of the building committee, said the new children's educational building will contain 5,100 square feet and will provide rooms for kindergartners through sixth grade levels.

Improvements at the church will include an addition to and improvement of the parking lot and air conditioning of the present educational building.

The new building is the third to be built at the church in 13 years.

## THE EASTER BUNNY WAS ONCE A BIRD

According to legends of ancient Teutonic tribes, the spring goddess Eostre, worshipped by the pagan tribes, transformed her pet bird into a rabbit to entertain the children. Centuries later, he still appears with his basketful of eggs, announcing the arrival of spring.

EASTER EGGS ARE ANCIENT HISTORY  
Ancient Persians who believed that the world was hatched from an egg on the first day of spring, observed the day by exchanging colored and decorated eggs. At Easter, the early Christians stained eggs a deep red to symbolize Christ's blood. An Easter gift of colored eggs was regarded as a sign of affection during the Middle Ages. At that time, the nobility exchanged artificial eggs of silver, mother-of-pearl and bronze.

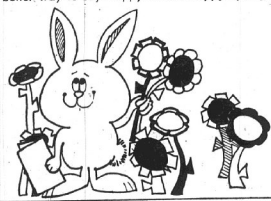

THE FIRST EASTER CARD WAS SENT IN THE 19TH CENTURY  
The first Easter cards were illustrations of colored eggs and were sent by the people of Northern Europe about the year 1850. Later Biblical scenes and colorful spring flowers graced the cards. You'll still find eggs and bunnies and birds and flowers on many Hallmark cards awaiting you in our complete Easter shop. Stop in soon and make it a Happy Easter! Happy Spring!

FLOWERS TELL AN EASTER STORY  
Traditional Easter flowers, which often appear in greeting card designs, have a deep religious significance. The lily is honored as the first Easter flower because it resembles the golden trumpet

Selected from the local community were Miss Susan Meta Kiyaschiff, daughter of Mr. and Mrs. Vasil P. Kiyaschiff, 18 Devon Hill Lane; Philip Dale Dortch, son of Mr. and Mrs. Clate R. Dortch, 2811 Warren Ave.; and Miss Eerie Ann Mills, daughter of Mr. and Mrs. Joseph B. Mills, 2104 Cottage Ave.

To mark their selection, the three seniors were presented \$25 U. S. Savings Bonds and citations in ceremonies last week in the Junior Room of the Elks Lodge. E. David Whitsell, exalted ruler, made the presentations.

Judges Committee  
Serving on the local judging committee were Whitsell; William Russell, past exalted ruler; Robert Crain, past loyal knight; William Howard, judge-at-large and esteemed leading knight; Gordon; and Ivan Pomero, Youth Activities co-chairman.

The Elks National Foundation trustees will offer 736 scholarships exceeding \$500,000 in value during 1971, Gordon explained.

Scholarship awards include first place grants of \$2,500 to each boy and girl second place, \$2,250 each; to tenth place winners who will receive \$1,250 each.

Thirty additional awards of \$1,000 each; 50 awards at \$800 each; 10 at \$600; and 108 at \$500 each also are included on the list, Gordon said.

The local students whose scholarship ratings show outstanding merit are now eligible to be judged in the Illinois Elks and National Elks contests, the chairman explained.

## House Group on Conduct to Open Hearings

The House Committee on Standards of Official Conduct will open hearings tomorrow on a proposed substitute for the 1946 "Regulation of Lobbying Act," Rep. Melvin Price, chairman of the committee, has announced.

The proposed substitute, designed to correct weaknesses in the present law, was introduced

March 1 by Price, with Rep. short," he said, "we believe Jackson E. Betts of Ohio, ranking Republican member of the committee, as co-sponsor.

"These weaknesses—mainly in the areas of disclosure requirements and enforcement and in the definitions provided—were brought out clearly in the public hearings which the committee conducted last fall," Price said. "Nearly everyone who testified or submitted a statement described the present law as ineffective."

Blaser expressed belief the proposed substitute corrects the defects of the existing law while carefully protecting the constitutional right of petition. "In Office Building," he said, "we have an effective yet reasonable bill. We also believe we have a bill that will meet any court test."

The new hearings are intended, Price said, "to submit the bill to further tests of opinion, from inside as well as outside of Congress."

"I want to hear all who want to be heard, including those who would be subject to it," he said.

The announcement invited anyone desiring to testify or submit a statement to communicate with the committee's office at 2360 Rayburn House, national right of petition.

## Senate Committee Rejects Appointment

The Illinois Senate Executive Committee has rejected the appointment by Gov. Richard B. Ogilvie of William Blaser as director of the Environment Protection Agency.

Blaser is serving as acting director, and the governor said he would continue to remain until the Senate "refused to advise and consent."

It was the first time in four years that Senate Democrats turned down a major executive appointment, coming on a 159 vote. It was charged that Blaser was inexperienced for the position.

Gov. Ogilvie said, "It is regrettable that the Democrat members of that committee have voted not to appoint Bill Blaser who, in my opinion, was an excellent choice. I hope the committee will reconsider his appointment."

Blaser, 47, is a close associate and fund-raiser for the governor.

## Youth, 18, Prefers Jail to Cut of Hair

Adolph Ponder, 18, of 2938 Morgan Ave., who was arrested Feb. 25 in massive drug raids here, preferred to remain in the Madison County Jail rather than have his shoulder-length dark hair cut into a crew cut style.

It was a condition set by his parents who offered to post \$300 cash bail, which would have freed Ponder pending trial. He is charged with unlawful sale of narcotics. Twenty-eight persons were arrested in the raids, and one other remains in custody at the jail. He is Gary Aund, 21, of Rural Route One, who is being held for military authorities for being AWOL.

Jailers note that Ponder keeps his hair neat and clean, causing no sanitary problem.

## Commencements Same Day at Two Campuses

June commencement exercises at Southern Illinois University's Carbondale campus have been re-scheduled from Saturday, June 12, to a day earlier. The southwestern campus commencement remains scheduled for Friday, June 11.

The June 11 ceremonies at Carbondale will be conducted as usual in two sessions—an afternoon exercise for graduates with last names beginning with letters A through K, and another that evening for the rest of the class. Both will be at the SIU Arena. A single ceremony will be conducted on the same date for the graduating class at SIU-SW.

Different commencement dates had been scheduled at Carbondale and SIU-SW in the past because many chief academic and administrative officers of SIU served both campuses. Most of those officers have been decentralized in the last year.

## SW Bell Files for Rate Adjustment

Southwestern Bell Telephone Co. filed proposed intrastate distance rate adjustments with the Illinois Commerce Commission Thursday and requested that they be made effective April 1.

"The adjustments were required to maintain uniform long distance rates throughout the state as the result of a similar adjustment requested by Illinois Bell Telephone Co.", according to Joe W. Smith, Unit Manager, Granite City.

The rate adjustment would raise the additional 1 minute overtime rate for some calls by one cent. For example, on a call to Springfield, Ill., from Granite City, the present additional overtime rate for one minute is 18 cents. The proposed rate would raise this to 19 cents.

The new tariff proposal also would raise charges 15 cents on station-to-station credit card calls. The cost of the initial three minutes on all other intrastate long distance calls will not be affected.

## Ronald Labory Fund Now Exceeds \$1,400

Interested persons, civic and fraternal groups are making contributions to the fund. His parents, Mr. and Mrs. Louis Labory, will return Friday from a two-week visit with him at the following address:

Ronald E. Labory Sr., 306-44-7313, 5 East Fifth Floor, Orthopedics, Fitzsimmons General Hospital, Denver, Colo. 80240. In a letter to Rev. Paul Surbey here, Mrs. Donald Labory reports that the soldier is continuing to amaze everyone with his progress. He is beginning to eat solid foods, has started the process of re-learning to walk, and has been making genuine progress in learning to feed himself. Doctors estimate that it will require about a year of recuperation, plastic surgery and special care before he will be released from the hospital.

## MORE ABOUT DOUBT

more for Cook County. If any one legislator is cut out, it is to his benefit to try and delay the map until June 30 because he may not be cut out in the next map.

**Some Hope for Compromise**  
Fortunately, there is a plus side to this confusion.

Firstly, with the House Republican and the Senate Democratic, it may be possible to get a compromise map which appeals to both. Not probable, but possible.

If such a map is drawn, because of the present makeup of the bodies, it will probably be pretty close to the same split as at present. And since the governor can live with the present split, he will sign the map.

Secondly, and perhaps more importantly, under the new constitution there is now a procedure for what to do if the legislature cannot restrict itself.

Anyone who voted the three-fourth orange ballot in 1964 can testify to what can happen if there is no such provision in the constitution.

**8-Member Commission**  
Under the new constitution, if no map is approved by June 30, a Legislative Redistricting Commission is formed. The Commission will contain two senators, two representatives and four public members, with an equal division going to each party.

If five of those persons do not come up with an agreed redistricting plan by Aug. 10, then the State Supreme Court will suggest two names to be added to the commission, one from each political party.

Then, one of the names is drawn and he becomes the ninth member of the commission.

Of course, the Supreme Court is Democratic and it is possible they could come up with a nominal Republican. At this point, that is just speculation.

But starting May 15, it will be full speed ahead.

## MORE ABOUT Quad-City

of the geographic catchment areas and the two cities in the 25,000-and-over group.

In the 10,000 to 24,999 class are Wood River (13,180), Collinsville (11,770) and Edwardsville (11,070).

In the 2,500 to 9,999 category are Bethalto, Cottage Hills, East Alton, Godfrey, Highland, Madison and Venice.

It has been agreed upon that the catchment areas are delineated in the following manner:

Madison County Mental Health Center, Inc., Alton — 1, 4, 6, 7, 8, 11, 13 and 16.  
Quad-Cities Center, Granite City — School Districts 2, 3 (Venice), 5, 9 (Granite City), 10 and 12 (Madison).

**Populations About Equal**  
It has been determined that the population of the two planning areas is approximately equal.

Both areas are nearly equal in their amount of rural and urban distributions.

The Quad-City area includes 32,513 children from the kindergarten to twelfth grade level (29,657 public school students and 2,855 parochial school students). The Alton area includes 36,550 children from kindergarten through twelfth grade (32,800 public and 3,750 parochial).

## Airlines Contract to Use Airport Due Soon--Ogilvie

Signed contracts with nine major airlines serving the St. Louis metropolitan area, committing them to support of a new major metropolitan airport, will be developed within the next 45 to 60 days, Illinois Governor Richard B. Ogilvie announced following a meeting with airline executives in New York.

The airline representatives, meeting Friday with Governor Ogilvie and St. Louis Mayor A. J. C. Wiser, promised support for a new major metropolitan airport at any federally approved location, and at the same time agreed to make improvement in their facilities at Lambert-St. Louis Municipal Airport during the 1970s.

Ogilvie and Cervantes said following the meeting that they were "well satisfied" with the matters discussed, and the governor said he feels "we now have an oral commitment from all the carriers to proceed. . . I intend to reduce this to a signed contract within 45 to 60 days."

The airline executives emphasized their intentions to abandon Lambert Field when the new airport is built. One airline executive said "we made this point loud and clear" because past experience and future projections show the air-

lines cannot afford a two-airport operation in St. Louis.

**Needs FAA Approved**  
The airline representatives also informed Ogilvie and Wiser that they will support any location approved by the Federal Aviation Agency and other government agencies involved.

"The airlines are not in the business of choosing airport sites," F. C. Wiser, president of Trans World Airlines, said.

He added, however, that "we feel the regional approach taken in St. Louis is good."

Wiser said he is certain the airlines will sign a formal commitment to support the new airport if the site is approved by the FAA and it has the support of the community.

Executives of airlines other than TWA attending the meeting included Allegheny, American, Braniff, Delta, Eastern, Frontier, Ozark and Southern Airlines.

## East Bank Players Set Dates for 'Music Man'

The East Bank Players are well into rehearsals for their third production, "The Music Man," to be presented here on Friday and Saturday, April 23 and 24, and again on April 30 and May 1. Mrs. William A. (Mill) Hoelscher, director, announced.

On the two consecutive weekends, the Quad-City area's community theatre group will offer the popular Broadway musical in a cabaret-style setting at the Granite City Elks Club, 1329 Niedringhaus Ave., the director advised.

A total of 52 area residents, including children and adults, will take part in the Meredith Wilson classic—the largest cast assembled for any Players show.

Miss Gail Hamilton is serving as musical director, with choreography by Miss Diane Nohoff and Mark Gifford providing piano accompaniment. Mrs. Hoelscher said.

Preparation in other areas is progressing rapidly, the Players officials reported. Scenery to be used in the production is being designed by Gene Cassy and children's costumes by Mrs. Richard Luebert.

Stanley Coleman is supervising styling and creation of the women's costumes for the musical, which is set in Iowa in 1912.

A preview performance of "The Music Man" will be presented tomorrow evening at a fashion show sponsored by the Young Democrats organization. Mrs. Hoelscher said.

# 7th Warrior Sweet-16 Team Hoping for 2nd State Basketball Title in 31 Years; Undefeated Paris Foe at Charleston Tuesday; Then Normal, Thornridge, Benton?

Just as in 1911, 1912, 1916, 1938, 1940 and 1960, the 1971 basketball team of Granite City High School has qualified for the "sweet 16" state tournament, disposing of Gillespie 72-46 in the sectional tournament championship game Friday night at Edwardsville.

It is now "on to Charleston" for the Warriors, who hope to duplicate their feat of 31 years ago — the state title.

Carrying the hopes of GCHS is a young poised team led by Donald Detering, no stranger to state competition as a player and as a coach.

The basketball Warriors include Mike DeRuntz, 6-3; senior center, and Terry Ripka, 6-5 junior forward, each of whom

scored 19 points Friday.

Joe Wallace, sharpshooting 6-0 junior guard, added 13 points; Kevin Dyer, 6-2 junior forward, nine; Bob Wiggins, 6-1 junior guard, four; and two points apiece, Chuck Kraus, 6-3 junior forward, John Ireland, 6-0 senior guard, John Pithers, 6-7 senior guard, and Rick Pehm, 6-4 junior center. Not scoring was Gary Lively, 5-7 sophomore guard.

Paris—also one of the "sweet 16" schools in Granite City's state championship year of 1940 — is the 1971 obstacle between the Warriors and a return to the Campagna-Urbana hardwood Friday and Saturday.

With the 16-team state finals opening with contests at eight "super-sectional" centers tomorrow night, the 22-8 GCHS squad is paired at Charleston with the only undefeated Illinois school, 29-0 Paris.

What lies ahead? The Charleston survivor will move to the "elite eight" quarterfinals at 8:30 p.m. Friday against the Normal entry, Vying at Normal Tuesday are Normal University High (27-1) and Danville (24-6).

If Granite City defeats both Paris and the Danville-Normal winner, its state semifinal foe at 1:45 Saturday will be a quintet from either the Macomb or Crete first-round games to-

morrow.

Macomb rivals are Kewanee (21-5) and Quincy Catholic (25-3). Crete contenders are Chicago Marian (22-5) and Northridge of Dolton (27-1).

Semifinal losers will meet for third place at 7 p.m. Saturday, while the teams winning Saturday afternoon will decide the Illinois High School Association championship at 8:30 p.m. Saturday.

The Warriors and other lower-bracket squads are at a slight disadvantage in the tournament in that they have less time to rest between rounds than the upper-bracket quintets.

Quarterfinal pairings Friday, ate the Carbondale-

Evansville winners, Peoria-DeKalb, Macomb-Crete and Charleston-Normal.

Meeting at Carbondale tomorrow are Benton (28-1) and Viroquois; state champs have a 9-0 Nashville (24-3), while clashing at Evansville are Winnetka's New Trier East (18-7) and Oak Lawn (27-2).

Peoria super-sectional foes are Peoria Woodruff (13-17) and Springfield Lanphier (22-6). Meeting at DeKalb are Elgin Larkin (19-8) and Rockford Boylan (22-8).

Most "sweet 16" squads tend to have outstanding records, partly because a team must be strong to advance through the regional and sectional levels (small schools also play in district meets.)

Also, the win-or-else nature of the regional-sectional play adds five victories and no losses to the record of every survivor; state champs have a 9-0 better record than when they entered the regional quarterfinals.

Peoria Woodruff, Elgin, GCHS and Rockford have the least impressive won-lost marks, although it should be noted that the caliber of opponents varies in different parts of the state. The Warriors can claim the impressive Pontiac holiday tourney championship; in that meet, Granite City had been favored, 60-40, by Bloom 67-66 and Normal U. High 54-47.

Of the state-rated quintets still alive, Thornridge is generally rated as No. 1, Benton No. 4, Paris No. 6, Normal No. 8 and Danville No. 16. Normal or Danville must be eliminated at the super-sectional level.

If the Warriors reach the state title game — and if form prevails in other games — their foes, in succession, after Paris would be Normal, Thornridge and Benton — no "easy pickings" in any game.

Not all favorites win, of course. Nashville won where Carbondale or Breese Mater Del had been favored. Oak Lawn won a sectional title instead of Provinio East, Woodruff instead of Limestone and

Kewanee instead of Moline.

How far will the 1971 GCHS five go? Only time will tell, but there is past Warrior precedent for almost any level that is reached.

In 1960, Granite City stepped No. 1-in-the-state Pinksneville 75-66 for the sectional championship but was sidelined at the super-sectional by West Frankfort, which eked out a 64-62 win in double overtime.

The outcome was happier in 1940, when the Warriors qualified as one of the 16 state tourney teams and then defeated Dundee 35-30, Streator 45-31, Moline 41-38 and Herbin 24-22.

## DeRuntz, Ripka, Wallace Star in Sectional Championship Victory Over Gillespie

It was Mark Weyen who hit an 18-foot jump shot with one second left to give Gillespie a 64-3 win over Triad in the Edwardsville sectional semifinals three nights before. But no last-second comeback could have reversed the outcome of Friday's sectional title game, for the Granite City Warriors had beaten Gillespie 72-46.

With Weyen held scoreless, 6-3 senior John Saracco — named to all-state honorable mention Friday along with Granite City's Terry Ripka and Mike DeRuntz—did his best to keep the Miners in contention, pouring in 22 of his 28 points in the first three periods as Gillespie stayed within range, trailing 48-40 as the fourth quarter began.

17 rebounds — eight in the first half and nine in the second half — by DeRuntz.

DeRuntz also meshed nine of 13 shots from the field and one foul shot for 19 points, tying the scoring total of Ripka, who was eight for 17 in goals and caged three free throws despite spraining an ankle in the regional final and cutting his left eyelid in the sectional semifinals.

Wallace scored 13, Dyer nine, Bob Wiggins four and Ireland,

6-4, Jeff Wiggins, 6-8, and Brad Farnham, 6-6.

In qualifying for the Charleston game by winning the Paris sectional, the host team squeezed by 26-8 Robinson 30-27 on Friday. Wiggins scored 19 points and Tucker got 17.

Richard F. Henley of Herrin and Ted Search Jr. of Chester, who were the referees for the Edwardsville sectional tournament, also will officiate at tomorrow's Charleston first-round state game.

## Play-by-Play of GCHS Sectional Title Win

Play-by-play of the sectional championship game won 72-46 by Granite City over Gillespie Friday night at Edwardsville.

**FIRST QUARTER:** Saracco (M) — for Gillespie (Miners) field goal, Wargo (M) free throw for 30 lead. Ripka (W) — for Granite City Warriors) two free throws.

Ripka free throw, 48-36. Saracco goal and two free throws as period ended, 48-46.

**FOURTH QUARTER:** Wallace Leads Uprunge

Saracco goal, 66-46. Pithers, Pehm and Wallace two free throws each for final score of 72-46.

But the Warriors — a bit less consistent than Coach Don Detering would have preferred — broke it open quickly at this point. Ripka, Joe Wallace, John Ireland, Wallace again, Ripka again, Kevin Dyer, DeRuntz, and Wallace hit field goals for a 66-44 lead.

Free throws built the final 26-point margin as both coaches substituted freely.

Although ahead only 13-12 and 30-22 after the first two periods, Granite City won it easily in the statistics. Particularly decisive was their 37-22 rebound edge, including a record-tying

Paris — foe of Granite City Tuesday night at Charleston — placed one player on the unofficial 1971 all-state squad — Otto Tucker, a 6-4 guard who has averaged 18 points a game this season.

Others named to the state team and whom the Warriors might meet this week include Quinn Buckner, 6-2, Thornridge; Jim Semajski, 6-7, Benton; and C. Kupec, 6-8, Oak Lawn.

GCHS players gained two state honorable mentions. They are Terry Ripka and Mike DeRuntz; 6-5 Ripka, hitting 22 points a game, is an emerging marksman from almost any distance, while 6-3 DeRuntz is an able scorer and rebounder.

Rick Gosnell of Paris also was awarded state honorable mention.

Teammates of Tucker and Gosnell include Larry Jones,

6-4, Jeff Wiggins, 6-8, and Brad Farnham, 6-6.

In qualifying for the Charleston game by winning the Paris sectional, the host team squeezed by 26-8 Robinson 30-27 on Friday. Wiggins scored 19 points and Tucker got 17.

Richard F. Henley of Herrin and Ted Search Jr. of Chester, who were the referees for the Edwardsville sectional tournament, also will officiate at tomorrow's Charleston first-round state game.

**ALL EYES ARE ON THE BALL** during this action in Friday's sectional finale won by Granite City High School 72-46. Part of the crowd is visible in the background. Warrior No. 55 is Chuck Kraus. Gillespie players include Frank Wargo (22), John Saracco (52) and Mark Weyen (14).

In their next game tomorrow night at Charleston, the Warriors will face a much taller Paris team which will be gunning for its 30th straight win. It will be the speedy Paris offense vs. the GCHS zone press defense.

**Last Enemy Lead 14-13**

Saracco goal for last Miner lead of 14-13. Goals by Wallace, Wiggins and Wallace for 19-14 Warrior advantage.

Saracco goal and two DeRuntz goals, 25-18. Ripka (W) goal, into Granite City on the week ends from March 27 until May 2 as they hold their state-wide bowling tournament at Bowland, 5000 Nantooki Road.

## MARIJUANA... WHAT IS IT? "GRASS, POT, TEA OR WEED"

Although known for nearly 5,000 years, Marijuana has no recognized benefit in medical practice. Its sale is legally restricted. You cannot even buy it with a prescription.

The leaves and flowers of Canada Sativa, or the Indian hemp plant, have long been used by people who experiment with "mood" type drugs. Marijuana is not considered as addictive, like Heroin and Morphine. There are no severe withdrawal symptoms if you stop.

For this reason young folks think Marijuana is a safe drug to smoke. The illegal drug pushers call these cigarettes "Reefers, Joins, or Sticks." Their smoke is unpleasantly harsh and smells like burnt rope. They are the first step to danger.

The next issue of these Public Service messages will discuss the dangers of using Marijuana.

## Kathie Arlene King, Samuel G. Becerra Wed

The wedding of Miss Kathie Arlene King and Samuel Gecerra Becerra took place March 6 at the Church of Christ with Philip Powers, minister, officiating.

The bride is a daughter of Mr. and Mrs. Gerald King, 2803 Buxton Ave. Mr. Becerra is a grandson of Mrs. Ruth Evans, 121 Garchoe Homes, Madison.

The bride wore a floor-length gown of white satin overlaid with silk organza and trimmed with Alencon lace. The bodice had a high ruffled neck and full sleeves with cuffs of lace. The long full train was edged with lace and the headpiece was made of lace, sequins, and pearls. Daisies and gladioli made up the bride's round bouquet.

Arrangements of greenery and daisies, lighted candles in branched candelabra, and pew bouquets of white carnations and fern provided the setting for the 7:30 ceremony.

The attendants were Miss Beverly Cable, maid of honor, and Miss Rosemary King, Miss Cherie Johnson and Mrs. Phyllis Wilkerson, all cousins of the bride, bridesmaids, and Ellen King, another cousin, and Lynn Morgan, the bridegroom's cousin, junior maids.

The honor maid was in a gown of light aqua crepe with covered buttons down the front. Miss Becerra wore a high neck and a train. She carried a parasol which matched the gown, as did her headpiece. Her flowers were a wristlet of daisies.

The bridesmaids were in moss green crepe and chiffon with matching headpieces, and parasols with daisy wristlets. The junior maids were similarly attired in a darker shade of aqua.

Jackie Johnson and Steve Powers served as flower girl and ring bearer. The former wore a white crepe dress with lace train and carried daisies. Joseph Becerra, the bridegroom's uncle, was best man and Vince King, the bride's brother, Kurt Kimbro, a cousin of the bridegroom, Al Wilkerson, the bride's cousin, Scott King, her brother, Ricky Pulley, Raymond Becerra, and Tony Gray, brother and cousins of the bridegroom, made up the list of groomsmen and ushers. Tony Becerra and Rusty Pulley lighted the candles.

The bride's mother wore an aqua dress and coat and matching accessories, while the bridegroom's grandmother appeared in royal blue and black accessories. Mrs. Dorothy Pulley, the bridegroom's mother, chose a beige lace coat style dress. All wore corsages of daisies.

The reception was held directly after the ceremony at 2130 Clark Ave. The newlyweds are honeymooning in Honolulu, Hawaii, and they expect to be away for several months.

## Rep. Walters Wants Legal Advisor Fired

State Rep. Robert J. Walters on Friday urged SIU-SW Chancellor John Rendleman to fire Dr. John Paul Davis as legal advisor to the chancellor.

Walters charged that Dr. Davis, appearing Feb. 8 before the Illinois Crime Investigating Committee, said he believes marijuana should be legalized and sold by the state.

"As a citizen, he has every right to his personal opinion. But as a legal counselor to the chancellor of a state university, I feel that he was not there to state his personal opinion but was appearing on behalf of you as chancellor or, at least, with your full knowledge," Walters wrote.

The legislator said he considers the testimony "ridiculous and inappropriate" and added that he had waited "a reasonable period" for Dr. Rendleman to respond to Dr. Davis' comments.

The Granite City club also placed four in alternate spots for the state tournament. Taking third place in their weight classes were Keith Whealan (65), Randy Hartline (77), Steve Harrison (115) and Steve Vorce (135).

The only wrestler defeated in the first round of competition was Joe Green (105).

The Granite City club, composed of students from Grisby and Coolidge Junior High Schools, accumulated 163 points to dominate the tournament.

Placing behind Granite City were Edwardsville with 96 points, Belleville with 54, Murphysboro with 50, Springfield with 39, Centralia with 28 and Carbondale with five.

## Economic Downtrend Complicates State Revenue, Service Demands

By RICHARD B. OGILVIE  
Governor of Illinois

Every year, an Illinois governor is required to submit to the General Assembly a budget with his recommendations for financing the operations of state government for another year.

On March 3, for the third time since I became governor, I met that requirement. And I presented a budget which belongs to the legislature for sorting out the priorities for our state.

The budget which I recommended represented the result of thousands of man-hours of work, of tough decisions and careful checking and figuring out where to cut costs.

Even though the state budget process takes about 18 months, it is not much different from the kind of review which every Illinois family must perform occasionally.

We are faced with the same problems — only on a much larger scale. Instead of figuring out how to send a child to school we have to worry about 100,000 college students.

Next month's rent, we are forced to consider construction costs on dozens of large buildings — costs which are going up about 10% a year.

Quite simply, we face the same checkbook-balancing act which is common to Illinois families — the trick of meeting increased needs and higher costs with very limited resources.

The problem is not new. Governments and families have been facing it for centuries. But the problem is especially acute this year in Illinois state government.

Because of the general economic slowdown all over the country, we are expecting our state tax revenues to increase by only 5.5% in the coming fiscal year, less than half as much as in the past two years.

Yet, on the other hand, the demands on state services are growing faster than ever.

Public welfare, over which the states have no control, is a social and financial disaster which will cost us 26% more in fiscal 1972 than in the present fiscal year.

In fact, most of our additional money is going into this one program.

Because the federal government exerts so much control

over the administration of our welfare program, I believe it should assume a larger share of the funding responsibility. That increased help is essential; congressional failure to act results in severe cutbacks in many of our vital state services.

Our schools must improve the techniques and facilities for teaching our children; we must care for the unfortunate mentally ill and retarded.

We must strengthen our law enforcement capabilities; we must moderate and widen our dangerous highways to keep the traffic fatality rate going down; and we must expand our state park system.

Yet, it is clear that we simply cannot do everything with the extremely limited resources available to us.

It is for that reason that I have asked the Board of Higher Education to submit new budgets for our colleges and universities — budgets which take into account our very tight fiscal situation.

The budgets they have provided for colleges and universities represent a 34% increase in one year.

In view of our limited resources, and in view of the fact that the higher education system in Illinois has DOUBLED its expenditures in FOUR years, it seems that a greater sense of responsibility is in order.

I hope the board and the college administrators will join us in attempting to maintain our state's financial stability.

These are some of the problems we faced this year in drawing up our Illinois state budget. We have proposed our solutions, and now it is up to the General Assembly to act.

I would appreciate your comments and observations on the 1972 budget, or any other subject concerning our state government.

To assure that your letters reach me, you should write to me at Room 408, State Capitol, Springfield 62706.

This is one of the ways you can take to help all of us in Springfield make a more effective job for all Illinois citizens, and I urge you to write to me with your comments.

Please be sure to use the address I have given you. I am sure you will not be misdirected or delayed.

## Many States and Local Taxes Are Deductible on U. S. Tax Returns

(Internal Revenue Service)

Q) This year I will be itemizing my deductions for the first time. What are some of the taxes that I may deduct?

A) Generally, you may deduct real estate taxes, state and local gasoline taxes, general sales taxes, and personal income taxes, and personal property taxes.

There are a number of taxes not deductible. Among these are federal income, estate and gift taxes, as well as alcohol, tobacco and other excise taxes. You should check the instructions that came with your Form 1040 to make sure you deduct the proper taxes.

Q) I understand the IRS has a booklet that is helpful to the small business owner. Where can I get a copy?

A) A copy of the 1971 Tax Guide for Small Business, Publication 334, can be purchased for 75 cents at IRS offices and from the U.S. Government Printing Office in Washington, D.C., and from branch stores throughout the country.

Q) Does it make any difference if I use a red, white and blue or a black and white Form 1040 for my Federal income tax?

A) No difference at all. Actually the tax packages mailed to taxpayers contained the red, white and blue Form 1040 while the 1960's available at banks, post offices, and some office buildings are black and white.

The IRS, however, urges taxpayers to use the multi-colored form whenever possible, since the red lettering in the form highlights areas where errors are most commonly made.

Be sure to use the pre-filled label that came on the tax

package you received in the mail.

Using the preaddressed label will speed any refund due and eliminate possible errors.

Simply peel off the label from the front of the tax package and affix it to the Form 1040 you send to the IRS.

Q) Is it true that there is a penalty for filing your income tax return late?

A) Yes, a penalty of 5% of the taxes due and unpaid on the date the return was required to be filed will be imposed for each month, or part of a month, the return is late.

The total delinquent filing penalty is limited to 25%.

Under unusual circumstances, a taxpayer may be given an extension of time to file a return.

Extensions are not granted as a matter of course, and reasons for your request must be substantial.

Your request for an extension must be made before the due date of the return.

Q) Last year my husband won \$50 in a photography contest. Must he report this as income on his tax return?

A) Yes. If you win a prize in any contest, such as a raffle, beauty contest, door prize, and the like, the prize is taxable income.

Taxpayers should also remember that prizes and awards given in goods or services must be included in income at their fair market value.

Of course, if you refuse to accept a prize, it is not included in your income.

An award or bonus given employees for their achievement in work or for adopted suggestions is also taxable.

### Continuation of Some Depot Tasks Is Good

News; Full Use of Depot Still the Goal

It is welcome news that there will be a link between the U. S. Army Aviation Systems Command in St. Louis and the metropolitan area support mission of the Granite City Army Depot, with 300 civilian and military personnel retained. But it will be vital for governmental leaders and the public to continue giving full attention to the future of the Depot.

It was announced in March 1960 that the Depot would be inactivated as of June 30, 1971. Since then, about half of the staff has left due to transfers, retirements, resignations and other reasons.

With the support function assigned to the Aviation Systems Command as of July 1, 1971, the timing is good but the staff will be only 40% of the civilian work force originally designated for separation rather than transfer. And some of the support duties may be carried out at the Aviation Systems Command headquarters in St. Louis rather than at the local Depot.

The development again focuses a spotlight on the issue of economy, cited as the reason for closing the Depot and certain other U. S. military bases.

The federal government has yet to reverse plans for construction of expensive new office facilities in St. Louis; if it is concerned with economy, surely it will avoid such construction until the vast facilities of the Army Depot are again being fully utilized for some valid public purpose or until they have been converted to use by private enterprise.

### This Supposedly Wasn't the Year for GCHS To Reach 'Sweet 16' But Let's Win Anyway

All hail the conquering Warriors! They met and defeated the "sweet 16" state basketball tournament in 1971. After all, it was supposed to be next year that the Granite City High School athletes make their big move. They are mostly juniors this year.

But, then again, they were not favored in the regional meet, which was supposed to be won by Alton, or in the sectional tourney, in which the St. Louis team was favored. They were the favorites in the 16-team state tournament in 1940, when they won all the way and won the Illinois high school title.

But life is to be swift, and the accurate shooters and the skilled defensive players. Who knows what the fortunes of basketball warfare will bring in 1972?

We'll take our chances this year. And what a wrong with two straight state championships, in 1971 and 1972?

## Schools Briefing Youngsters on Nature, Effects of Alcohol, Drugs

By PETE BROWN Southern Illinois University News Service

Illinois law as embodied in the state School Code covers some charming pieces of legal territory.

For instance, it says right there in the revised statutes that every public school teacher must teach honesty, kindness, justice and moral courage "for the purpose of lessening crime and raising the standards of good citizenship."

To what extent Kindness 101 is included in the common curriculum of a college-bound high school class went unasked when it decided that the nitty-gritty on narcotics ought to be part of elementary education in its Southern Illinois town.

Not having a handy copy of the statutes — or even knowing exactly what they were looking for — the class members wrote to a source in Springfield, Lo and behold, Section 27-10,

"Nature and effects of alcoholic drinks and narcotics."

What the law says, in brief, is that every student from the first grade through the freshman year of high school has to be taught every year — from 30 to 40 lessons covering the subject of booze and drugs and their effects on the human system.

It spells out how many pages textbooks should devote to the subject and the best ways of teaching it. And the law is not without a tooth or two.

"Any school officer who neglects or fails to comply with the provisions of this section shall be liable to pay for each offense not less than \$5 nor more than \$25."

Well, now. It seems that teaching youngsters about drugs

isn't just advisable (as more to his board which he says and more concerned educators "could be one of the outstanding parents are saying); it is, in Illinois at least, a violation by law.

Of course, there are a few not only teachers but psychologists, doctors and "the law enforcement community" who may really relate to it.

Its overall aims will be both preventive and corrective because, as he says, "we don't really want it and they aren't interested in quick, crash programs. They want something that can really relate to the lives of the children."

Seven miles away at little Giant City grade school, there is a "realistic approach" to drug and sex education courses for the upper grades (5th on up). Supt. Claude Ross, one of the old timers in elementary education around this part, says, "We're going with that, as we go along."

Then there's the matter of honesty, kindness, justice and moral courage. Some things, though, are hard to teach.

## FROM THE STATEHOUSE

By LT. GOV. PAUL SIMON

### Revenue-Sharing — Good or Bad?

The Gallup poll shows that 77 percent of the public is for federal revenue-sharing with the states and in theory I have no objections. But here are some realities which Illinois citizens must face before they become too enthusiastic over the proposal:

1. This is not money which will fall from the skies. It is your money coming from the federal government to the states. It comes from a federal government which this year will have a deficit of approximately \$19 billion. Should the federal government go into the red additionally in order to have revenue sharing with the states?

2. Illinois taxpayers suffer under the proposal. The Tax Foundation says that under the present categorical grants Illinois taxpayers pay \$1.46 for every \$100 we get back. Using the federal figures for the new revenue-sharing plan, we will pay \$1.54 for every dollar we get back. For Illinois citizens this is not a good financial deal.

3. The reality is that our state has not been as responsive as they should be to the greatest problems confronting our society. While it sounds good to say we are "giving the money back to the people," to much too great an extent state governments have squandered money to wastefully and Illinois has some excellent examples of this. Handling money over freely to Illinois and Mississippi and California and every other state "with no strings attached" sounds good, but it has some major pitfalls.

4. When it is practically possible, there is something healthy about the person who spends the money having to earn it. It is spent with considerably more care than it is for individuals and it is true for government. Illinois will get \$220 million under the proposal now before Congress. However, we will pay for \$240 million of the \$5 billion package. But the taxes will be collected at the federal level and it appears to be handed to us in state government so easily. Whenever it is realistic to do so, the taxing body which spends the money ought to levy the taxes.

5. This does not mean I am opposed to all federal assistance to states. Clearly Illinois as a wealthy state is going to have to assist some of the poorer states with their educational and economic problems.

6. But the present proposal is a politically appealing but unhappy answer for Illinois taxpayers. Citizens obviously need help and I favor greater efforts by the federal and state governments in recognizing their needs. Congressman Wilbur Mills has indicated that he will introduce legislation which over a three-year period would call for federal assumption of the public aid bill. I favor this.

7. This would help Illinois much more than the President's proposal, and would help to reduce some of the social problems which are caused by excessive movement in our society today.

But the present proposal is not a good one.

### Council Votes on Sewers; People Will Vote on Aldermen April 6

To the Editor: After reading a letter in The Public Outcry on Sewer Planning by Granite City Council, I was gratified to know there is at least one other person in Granite City worrying about who has their tax dollar in position? The article stated that taxpayers have spent over a million dollars in repairs on our present sewer system, so it is not incredible that our City Council would hire the same firm for the new sewer project?

In my opinion this is just one instance of the complacency of the people. There is to be an election in the city on April 6, "just" city election, is what I hear.

There are aldermen to be elected; these are the men who run our town. Are they going to be elected? Shouldn't we know the qualifications of these men? There will also be a new set of representatives of streets elected. Who are the men seeking this position? What are their qualifications? Do the taxpayers realize how much of their taxes is spent by this department?

I think it is the duty of the paper to get this information before the people. Then it is up to the people to study this information, get up off of their good intentions and vote for the most qualified men.

There are aldermen to be elected. A TAXPAYER WHO CARES

## U. of Illinois Airplane Fleet Bigger Than SIU

Contrary to published reports, Southern Illinois University does not possess the largest fleet of state-owned planes, a spokesman noted Friday.

Figures contained in the 14th annual report of the Illinois Legislative Audit Commission, dated Feb. 26, reveal the University of Illinois has 50 planes and SIU has 30.

Each university primarily uses seven planes for transport, with most others designed for flight training and other duties where a small, one-engine plane is desirable.

An erroneous news story last week — not published in the Press-Record — listed what it said were costs SIU had paid for its planes. Included were figures it said SIU had paid for

four transports which, according to Gene Seibert, manager of SIU's Airport Operations at Southern Illinois Airport, Carbondale, were obtained free of charge.

Purchase figures used in the story apparently were values placed on them for inventory purposes. Seibert believes. Seibert said also that airport operations has but 26 planes, not 30. The other four apparently are included in non-flying instructional planes used in SIU's Aviation Technology Program, he added.

The planes obtained free were two DC3s and two 6- or 7-place Twin Beechcrafts.

One DC3 was obtained in 1964 from military surplus and the other in 1967 from General Motors. Modification to meet federal regulations and to increase seating from 12 to 21 on the military plane cost \$22,292, according to Seibert. A total of \$4,950 was spent to convert the General Motors gift from 12 to 21 seats.

The Twin Beechcraft planes came from military surplus in 1960. SIU spent \$12,020 to convert one to civilian use. A more complete modification job on the other that included increasing the gross weight load cost \$21,780.

The conversion costs, Seibert explained, are assigned values to work done in his own shops except for \$22,292 paid to an outside contractor on the military DC3.

**JUBILEE STOCK SALE** began in Granite City last week at ceremonies held on the city's 75th birthday. In the top left picture, Mayor Donald Partney (center) buys stock certificate from Marvin Van Metre (right); Jubilee Chairman Barry

Loman (left) watches the transaction. In the picture above, the colorful Granite City High School Band plays at the outdoor program, with Music Director Louis E. Meek conducting.

**ANNIVERSARY FLAG-RAISING** above is carried out by DeMolays Hiram Ables (left) and Steven Ebrecht during the kickoff program for an August 1971 festival at which Granite Cityans will observe the 75th anniversary of their municipality and the 50th year of their park system. Flags encircled the center of Civic Park for the occasion; the Granite City public library is in the background.

The next picture shows (left to right) Barry Loman, general chairman of the jubilee; Henry R. Gabriel, president of the Granite City park district; Henry D. Karandjeff, speaking on his recollections of the city; and Albert H. Froemling, president of the Chamber of Commerce of the Tri-Cities.

The photograph at the far right above shows Mrs. Mae Pitchford being interviewed for the gathering of 300 by Chairman Loman; she moved to Granite City in 1899. Behind them are (left to right) Mayor Partney, Gabriel and Froemling. Park President Gabriel is shown speaking in the scene at the left. He asked that all residents take an active part in the anniversary activities. Part of the crowd which gathered for the kickoff is shown in the photo at the right; the view is to the south in Civic Park, toward Niedringhaus Avenue.

## Ogilvie Commended For Holding Tax Line

"Governor Ogilvie of Illinois deserves much credit for his determination to hold the line on tax increases in the state this year," Jack W. Roadman, director of taxation for the Illinois Manufacturers' Association, told the St. Louis chapter of the Tax Executives, Inc., at its regular meeting Thursday night.

He pointed out that Illinois tax collections in 1970 rose 49%, an increase that led all other states.

"Governor Ogilvie's 1972 budget shows courage and good judgment in holding down spending in state agencies, particularly in the field of higher education which appears to have gotten out of hand," Roadman said.

Roadman said a recent Illinois "Business climate" survey conducted by I.M.A. among 500 leading manufacturers nationwide showed manufacturers still regard Illinois as a good place to conduct manufacturing operations, but they express much apprehension about the trend in business taxation, unionism and pollution control regulation.

"The stakes in the keen competition among states for new and expanded industries are increased tax revenues and jobs," he said.
